 ankit-suman-07.github.io

A highly motivated Computer Science graduate with a passion for software development. Currently enrolled in a Full Stack Software Development bootcamp by upGrad(Golden Gate University), seeking a challenging role that will allow me to apply the latest industry knowledge and practices.

WORK EXPERIENCE

Computer Science Tutor, CourseHero, Remote | Mar 2021 - Present

- Provided written computer science solutions to students around the globe.
- Leveraged expertise in programming, DSA, databases, and other computer science topics to help students understand complex concepts.
- Followed best practices and industry standards to ensure solutions were accurate and easy to understand.

Data Science Intern, Exposys Data Labs | Mar 2021 - Apr 2021

- Created an online forum where individuals could share their struggles related to mental health.
- Utilized technical skills including HTML, CSS, JavaScript, PHP, and Python (specifically for the ML portion).
- Incorporated Sentiment Analysis to evaluate the severity of depression for each individual who shared their story.

PROJECTS

Forum For Mental Health Awareness | May 2021 - July 2021

- Skills Used: JavaScript, CSS, HTML, PHP, Python
- An online forum where people can share their struggles regarding mental health issues.
- Used Sentiment Analysis to check the severity of depression of the person.

Mix-N-Match Game | Feb 2023

- Utilized HTML, CSS, and JavaScript to create a fun and interactive card matching game.
- Developed game logic, including card shuffling, matching, and scoring.
- Demonstrated proficiency in front-end web development skills, including HTML, CSS, and JavaScript.
- Enhanced problem-solving abilities by tackling the challenges associated with developing a complex game.

EDUCATION

B. E. Computer Science | CGPA: 7.38 | July 2017 - July 2021

- Sahyadri College of Engineering and Management, Mangalore (VTU)
- Relevant Coursework: DSA, DBMS, Operating Systems, Computer Networks, Web Development, Machine Learning
- Participated in various cultural and sports events on campus, such as ARPAN and Sahyadri Premiere League.
- Engaged in technical events, hackathons, and coding competitions.
- Taught coding (Java and Python) to my friends and peers to help them develop their skills.

TECHNICAL AND SOFT SKILLS

- JavaScript, CSS, HTML, Linux, Git and GitHub, Canva
- Team Player: Participated in many hackathons and technical quiz in group.
- Communication: Able to effectively communicate complex ideas to both technical and non-technical audiences. Demonstrated through writing more than a 1000 technical solutions on CourseHero as a Freelancer.
- Leadership: Lead a team of four on a game development project in a hackathon.
- Adaptability: Comfortable working in fast-paced and constantly changing environments.
- Creative writing: Proficient in crafting compelling short stories that captivate readers.
